

The Walk for "Sanctuary Cities - Sanctuary World" holds unwavering belief that every human is sacred and should be secure from attack, and that this entire beautiful natural world is sacred and inviolable.

We walk for the safety of all immigrants and for us all. We walk for a demilitarized country and demilitarized world.

"The word 'sacred' is non-existent in the vocabulary of materialism, not to mention the jargon of the military, whose profession specializes in murder and destruction ... Words like 'sanctity' describe the quintessence of spirituality, particularly in a religious and moral society. It is what imbues life to such a society. No religion or ethics is devoid of the concept of sanctity. (let us) aspire to sanctify the entire globe, to realize the transformation of this world full of violence and suffering that is in itself already the Pure Land, Heaven on Earth..."

Most Ven. Nichidatsu Fujii,
Founder and Teacher of Nipponzan Myohoji,
Delivered in a talk entitled "Sanctuary" in 1981

"The Church has been involved in nonviolent peace-building strategies in many countries, engaging even the most violent parties in efforts to build a just and lasting peace...Jesus himself offers a 'manual' for this strategy of peacemaking in the Sermon on the Mount...Let us never tire of repeating: 'The name of God cannot be used to justify violence. Peace alone is holy...."

- Excerpts from "Nonviolence - A Style of Politics for Peace" by Pope Francis, January 1, 2017

"We must rapidly begin the shift from a 'thing-oriented' society to a 'person-oriented' society. When machines and computers, profit motives and property rights are considered more important than people, the giant triplets of racism, materialism, and militarism are incapable of being conquered."

Martin Luther King, Jr

THE ABOVE TWO CHINESE CHARACTERS COMPRISE THE MEANING "CRISIS." WHEN TRANSLATED INTO ENGLISH THE FIRST CHARACTER MEANS "DANGER", THE SECOND MEANS "OPPORTUNITY."

As crises arise from many directions, people are opening their hearts, making great effort to move the crisis conditions from “danger” to “opportunity.”

Before our eyes, immigrants are feeling the violence or imminent threat of violence of arrest and deportation. Families traumatically wrenched apart; deported people often facing unlivable situations upon return, sometimes even death.

This is not what this country should be.

The monks and friends of New England Peace Pagoda wish to dedicate our 16th annual Walk for a New Spring to “Sanctuary Cities - Sanctuary World.” For 3 weeks we will walk in Massachusetts and for 1 week in Washington DC to show active solidarity with immigrants, to honor the many people, faith communities and other communities and political leaders who are coming together across all lines to commit to sanctuary for our immigrant brothers and sisters.

We call also for a “Sanctuary World” - a world free of the terrifying oppression of war and weaponry. Domestically and internationally - let the US begin our destined and true path of demilitarization and the building of a peaceful country.
